

AD 1.2 RESCUE AND FIRE FIGHTING SERVICES AND SNOW PLAN

1 Rescue and fire fighting services

At aerodromes approved for scheduled and/or non-scheduled traffic with aeroplanes carrying passengers, Rescue and Fire Fighting Services and in the case of Male' International Airport, Sea Rescue Services are established in accordance with the regulations for civil aviation.

Note. For helicopters, special rules will apply.

Information about whether there is service and what the extent of that service is, is given on the relevant page for each aerodrome.

Scheduled or non-scheduled traffic with aeroplanes carrying passengers is not allowed to use aerodromes without Rescue and Fire Fighting Services.

Each individual service is categorised according to the table shown below. Temporary changes will be published by NOTAM.

<i>Rescue and fire fighting services</i>	
<i>Aerodrome category</i>	<i>Amount of water in litres for production of performance level A foam</i>
2	1000
3	1800
4	3600
5	8100
6	11800
7	18200
8	27300
9	36400

(Category 1 is not used in the Republic of Maldives)

2 Snow Plan
