AIP
SUPPLEMENT
03/07
05 JUL 07

**ESTABLISHMENT OF A NEW ATS ROUTE SEGMENT
AND A REPORTING POINT**

1. INTRODUCTION

- 1.1 The purpose of this AIP Supplement is to notify the establishment of an RNAV route segment and a reporting point.
- 1.2 The establishment of this RNAV route segment will improve operational efficiency of international traffic between Colombo and Male. This route will simplify ATC coordination by reducing the number of area control centres involved from three to two, with Colombo ACC coordinating directly with Male ACC. This route is slightly longer than the existing route G465, but the main operators and the ACCs concerned will benefit from improved operational efficiency.

2. ESTABLISHMENT OF NEW RNAV ROUTE M512

- 2.1 RNAV route M512 has been established and will come into effect from 0000UTC on 30 August 2007. The details of the route are shown in Appendix A1.

3 ESTABLISHMENT OF NEW REPORTING POINT

- 3.1 A new reporting point, ANIVE (0540.9N 07800.0E) has been established and will come into effect from 0000UTC on 30 August 2007.
- 3.2 Reporting point ANIVE is established on Male'/Colombo FIR boundary where RNAV route M512 intercepts the FIR boundary. Details are shown in Appendix A2.
4. This AIP Supplement will remain in force until its contents have been incorporated in the AIP.
