General Guidance on how to complete MCAR-66 Licence Initial Issue/Variation Application Form

Having clear concise supporting data will enable CAA to issue licences more effectively and with less risk of errors or rejections. CAA may contact you for clarification of details on applications and therefore it is most important that you have the correct information before applying. For initial AML, initial type endorsements and amendment of AML, Aircraft Maintenance Engineer's Log Book appropriate section has to be completed and submitted.

Please note failure to submit a correctly completed application form and the required documentation will lead to the rejection of your application.

Section(s) 1 & 2 - Personal/Employers Details

To be completed in all cases

Section 3 - Application

Indicates what type of licence you are applying for. For type rating(s) endorsement, please list the individual types by airframe engine combination.

Section 3A - Category

Required for initial or any amendments to the AML.

Section 4 - Licence Details

Required for every application other than initial AML

Section 5a & 5b - Experience / Examination Modules Completed

- 1) To be completed for initial or amendments to AML or
- 2) Claiming an exam accredited and recognized by the CAA.

Section 6 - Declaration

By signing the declaration you are confirming that all of the information is correct and true.

Section 7 - Recommendation

The referee required to countersign the form must be a Quality Manager or the immediate senior person within the Quality Department of your current employer, or the organisation where the experience was gained.

Section 8 - Charges

This application will not be processed until the applicable charges have been received

Section 9 - Essential Information

Completion of this section will enable your application to be processed more efficiently, failure to supply this information may result in your application being delayed while we endeavour to contact you.
